

If your institution has a subscription for PsychiatryOnline, you have the option to access your institution's subscriptions remotely (off-site) via your computer or mobile device. Below are steps to guide you through the process of both setting up a MyPOL account to manage your paired devices and pairing a device with your institution.

MyPOL Account Setup

In order to pair a device, you must have a personal MyPOL account. Signing in to your MyPOL account also allows you to manage your paired devices and pair other devices if desired. You can create a MyPOL account by completing the following steps.

1. Select "MyPOL" on the top right on the PsychiatryOnline site menu.

2. On the next screen select "Register Now".

Please Sign In

The page or action you requested requires you to be signed in.

Sign In: Registered Users

Register for a free personal account to access these and other personalization features:

- Sign up for Article and Table of Content alerts
- Save your searches
- Save articles and publications

[Register Now](#)

3. Fill out the New User Registration form on the next page. Any field marked with an asterisk (*) is a required field. Once this is complete hit submit.
4. The next screen shows that your account has been created, but you must verify your email before your My POL account is completed. An email will be sent to the email associated with your MyPOL account and you must click the verification link within that email to complete your MyPOL account setup.

Your Account Has Been Created

Thank you for creating an account on PsychiatryOnline.org. You should receive an email message with instructions for verifying your email address with PsychiatryOnline.org.

In order to sign in, you must first verify your email address. Please check your email and follow the email verification link provided. If you did not receive an email message, please check that the message has not been filtered as spam. If you are still unable to locate the email, please contact PsychiatryOnline support at psychiatryonline@psych.org.

Pairing Your Device

Institutions using OpenAthens authentication: Please note that this feature is designed to provide institutional customers that do not currently have a remote solution implemented. If your institution provides access through OpenAthens, you will continue to authenticate using that method for remotely accessing PsychiatryOnline.

1. Using the device you wish to pair, navigate to the subscribed content that you would like to access remotely. *What you see will differ depending on whether your browser is displaying the desktop version versus the mobile version of the site.*
 - a. **Desktop** – After navigating to the content that you would like to access remotely, scroll until you see the gray box titled “Your Access Options.” Under the “Access through your institution” heading, enter your institution email address and select continue.

Your Access Options

Log In
If you have an individual subscription to this content, or if you have purchased this content through *Pay Per Article* within the past 24 hours, you can gain access by logging in with your username and password here:

Access through your institution

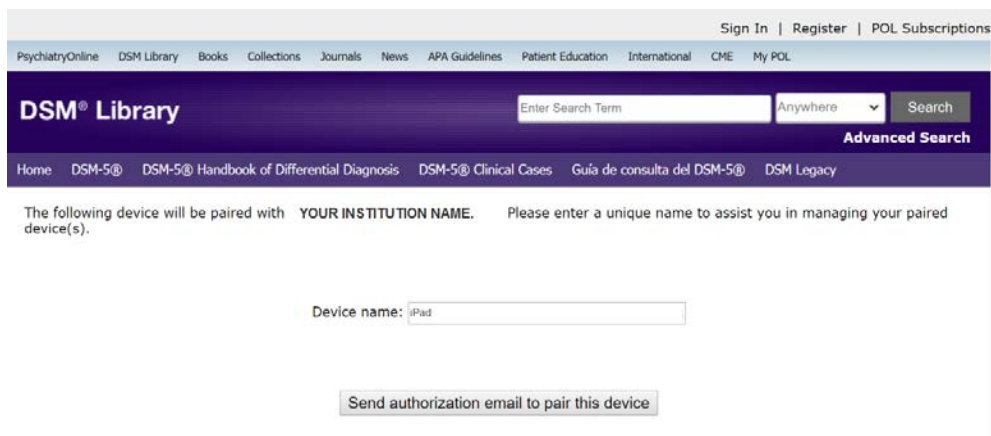

Please add or select your institution email address

If your institution requires signing in through Shibboleth/OpenAthens you will be taken directly to the institution's login page.

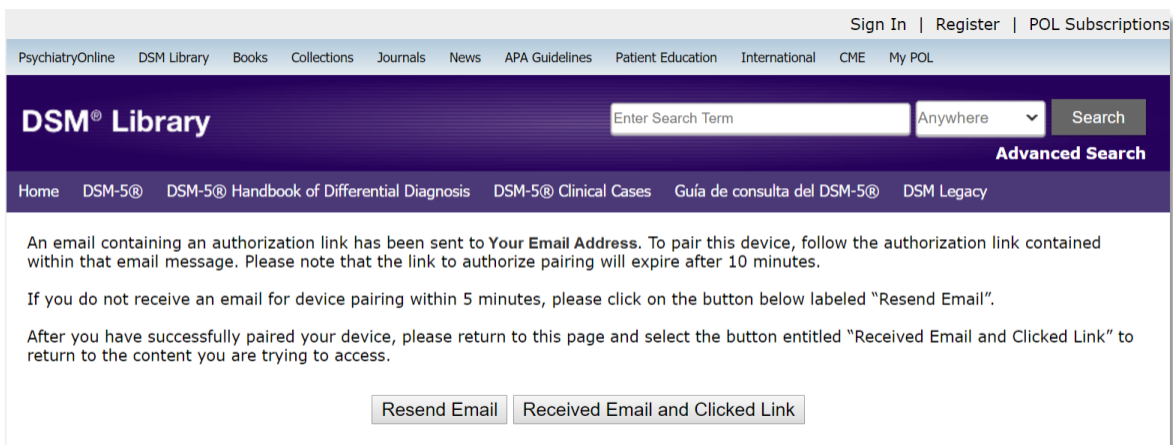

- b. **Mobile** – Browse the mobile interface to the desired content you wish to access remotely. You will see a white box titled “Authorization required to access Full Text.” Select the “Pair Device” button. On the following page, enter your institution email in the entry field, and then click continue.

2. Next, enter a unique name for the device you wish to pair and then request the authorization email by selecting the button titled “Send authorization email to pair this device.”

- The next screen displays a confirmation message which notifies you that an authorization link to pair this device has been emailed to you. If you do not receive an email for device pairing within 5 minutes, please click on the button titled “Resend Email.”

- From the same device, locate the email sent to you from psychiatryonline@psych.org and click on the link therein to complete pairing. Please note that the link will expire after 10 minutes. If this occurs, you will need to reinitiate the pairing process from Step 1.

- You will receive confirmation of successful device pairing along with details of the duration that your device will be paired. To return to the content from which you initiated the pairing process, select the “Access Content” button.

Device iPad paired successfully

Your device iPad was successfully paired with Your Institution Name.

You now have access from iPad to all content subscribed to by Your Institution Name until 11/08/2017.

You can pair iPad again after 11/08/2017.

Browser Cookies (Please read)

Remote device pairing on PsychiatryOnline.org makes use of browser cookies in order to function. If you clear your browser cookies on this device, iPad, you will lose remote access to the content subscribed to by Your Institution Name. If this occurs, you will need to pair your device again.

In the future, please sign in to your personal account via device iPad to access content through Your Institution Name.

[Access Content](#)

Note: If you completed the pairing process on a different device from which you started, please return to the initial confirmation page on the original device and select the button titled “Received email and clicked link.” This will allow you to return to the content from which you started.

- After successful pairing of a device, you have immediate access to your institution’s subscriptions. To access subscription content at a later date, you must sign in to your MyPOL account. Signing in also allows you to manage your paired devices and pair other devices if desired.
